Expectations for Dress (Board Policy 3255)

Guiding Principle

One of the fundamental purposes of school is to provide the foundation for the creation and development of a proper attitude toward education. While recognizing the importance of allowing students to express their individuality through their attire, the school is responsible for ensuring that student dress is conducive to a positive and respectful environment for all students. Student attire impacts the teaching and learning environment. It can either promote a more effective educational environment, or it can disrupt the educational climate and process. All students are required to dress in a manner that promotes a safe and healthy school environment, and is not disruptive or distracting to the educational climate and process. Student attire that is acceptable for some social settings may not be acceptable for the educational environment of school.

Students are reminded that their appearance, clothing, and grooming, significantly affect the way others respond to them. Matters of dress remain the primary responsibility of students, in consultation with their parents or legal guardians. Nevertheless, since it is the duty of the Board of Trustees to provide an educational atmosphere conducive to learning, minimizing disruptions or distractions, and to protect the health, safety, and morals of students all students will adhere to the following certain minimum standards of dress when the student is on any school premises or at any school sponsored activity, regardless of location.

Dress Code Highlights:

SHIRTS and BLOUSES:

Must have shoulder straps on at least 2 1/2 inches.

No halter tops, strapless tops, spaghetti straps, or bare shoulder tops.

Shirts and blouses should not expose any portion of the waist, hips, midriff, or breast when worn normally or with arms raised to shoulder level.

Low cut, see through, backless or tube tops are not appropriate for school. Undergarments should not be visible.

SKIRTS AND SHORTS:

Must be longer than mid-thigh length from the bottom of the knee.

No undergarments should be visible.

OTHER INFORMATION:

When a student is on school premises regardless of reason, students are prohibited from wearing or carrying, clothing, accessories or jewelry, or displaying piercings or tattoos, which, by picture, symbol, or word, depict or allude to any of the following:

- a. Wearing clothing which reveals a student's breasts, abdomen, undergarments or buttocks.
- b. Drug usage, including alcohol and tobacco;
- c. Controlled substances of any kind;
- d. Drug paraphernalia;
- e. Gangs;
- f. Violence;
- g. Sexually explicit, lewd, indecent, or offensive material; or
- h. Illegal acts.

An educational environment that is safe and is as free from distractions possible is the goal of every school, including Lake City High School. Regarding the "Expectations for Dress," not every deviation from the established "rule" would be possible to list. Therefore, "modesty" and "appropriateness" also serve as our guide when applying this policy.

2019-2020 Student Conduct Expectations

Student Rights & Responsibilities (Board Policy 3200)

(PDA, Respectful Lang, Disciplinary Action)

All students are entitled to enjoy the rights protected by the Federal and State Constitutions and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably

and avoid violating the rights of others. Students are expected to conduct themselves in such a manner as not to interfere with the orderly operation of the educational program. The building principals are directed to establish reasonable, and age-appropriate, rules necessary to maintain orderly conduct in the school. Students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures.

Student Conduct

Students are expected to conduct themselves in such a manner as not to interfere with the orderly operation of the educational program. All students are expected to obey all school rules. The school will not tolerate the use of alcoholic beverages, use of tobacco, use of e-cigarettes, use of prohibited drugs, acts of violent behavior, vandalism, and acts of insubordination including use of profane language to teachers, administrators, or non-certified staff in the school building, on the school grounds, or at school sponsored events/ activities. Violation of any of the above will result in suspension, notification of parents, and /or referral to the police.

Hall Passes

Unsupervised student traffic in hallways during class sessions is disruptive to the instructional process. Any student in any hallway during class time must wear the appropriate hall pass from their teacher. Students without valid passes will be asked to return to their class and/or assigned disciplinary consequences. There is to be only one student per pass unless a written note states otherwise.

Open Campus for all Students

Effective September 14, 2020, all students are permitted to leave campus during the lunch period. Students are not permitted to sit in their cars and eat. Upon return to campus, students must immediately return to the building.

Unsupervised Gym and Weight Room Use

Students are reminded that the gym and the weight room are not to be used at any time without school personnel present to supervise the activity due to the extreme safety issue.

Drug Free School Zone (Board Policy 3300)

In accordance with Federal law, the Board hereby establishes a “Drug-Free School Zone” that extends 1000 feet from the boundary of any school property. The Board prohibits the use, possession, concealment, delivery, or distribution of any drug or any drug-related paraphernalia at any time on District property, within the Drug-Free School Zone, or at any District-related event. If a student is involved in distributing controlled substances on school grounds or within a Drug Free School Zone or at any school sponsored function, law enforcement official(s) will be asked to intervene. There shall be a mandatory referral made by the school administrator to the Superintendent and the Board of Trustees for expulsion. Furthermore, the Superintendent shall take the necessary steps to ensure that an individual eighteen (18) years of age or older who knowingly delivers or distributes controlled substances so designated and prohibited by Idaho law within the Drug-Free School Zone to another person is prosecuted to the fullest extent of the law. Law enforcement officials will be notified of non-students on school property using, possessing or distributing controlled substances.

Drug, Alcohol, Tobacco, and E Cigarette Use (Board Policy 3300)

Lake City High School recognizes that student use of chemical substances, including alcohol, is a serious problem of utmost concern in our society. Drug, alcohol and tobacco including e- cigarette use is detrimental to a state of wellbeing and undermines the aim of education, which is to enable individuals to develop to their full potential. The district seeks to ensure the highest standards of learning in the classroom and recognizes that use of chemical substances—including alcohol, tobacco and controlled substances—creates educational, economic and legal problems.

It is the policy of the Board of Trustees, and a resolution of the Idaho State Board of Education, dated March 18, 1994, that smoking or any use of tobacco or e- cigarettes is prohibited in all buildings, and on all property owned, leased or used by School District 271. Any use of tobacco is prohibited.

Additionally, in accordance with Idaho law, each school shall provide education designed to foster an understanding of the hazards of smoking and use of tobacco products. Students attending school in this district will not use, possess, sell, buy, or distribute drugs, including alcohol, tobacco, controlled substances, or related paraphernalia, on school premises or at school sponsored activities. Any student will violate the district's drug, alcohol and tobacco use policy when:

1. He or she is on school premises or school sponsored activities evidencing behavior that creates a reasonable suspicion that he or she may be illegally under the influence of drugs, including alcohol, tobacco, or controlled substances;
2. He or she admits to using, possessing, selling, buying, or distributing drugs, including alcohol, tobacco, or controlled substance on school premises or at school sponsored activities;
3. He or she is found to use, possess, sell, buy, or distribute drugs, including alcohol, tobacco, controlled substances, or related paraphernalia, on school premises or school sponsored activities;
4. He or she is found to possess drugs, including alcohol, tobacco, controlled substances, or related paraphernalia, or to have such substances on his or her person, or in his or her locker, vehicle, or other property on school premises or at school sponsored activities;
5. He or she is found to knowingly attempt, conspire, or participate to use, sell, buy, or distribute drugs or related paraphernalia on school premises.

Such violations are subject to consideration for suspension and/or expulsion.

Once a student is reasonably suspected of being in violation of the law and this policy regarding controlled substances, regardless of any previous voluntary disclosure, the building principal will immediately notify the local law enforcement agency and will seek a law enforcement evaluation of the student. The evaluation may seek transfer of school custodial responsibility to the state department of juvenile corrections.

Substance & Alcohol Abuse (Board Policy 3320)

The Board recognizes that use of alcohol and drugs is a serious problem and that the presence of drugs in school is detrimental to the educational environment and harmful to the health, safety, and welfare of students and staff. It is the desire of the District to help those in need of alcohol and drug intervention and at the same time to protect others that are affected by the presence of alcohol and drugs and to enforce the policies of the District relating to use, possession or being under the influence of alcohol or controlled substances, as that term is defined in Idaho Code. It is the philosophy of the District that the District will help those who desire to help themselves.

If the student or parents/guardian refuses counseling and/or assessment, they will be reminded that use, possession, distribution, and being under the influence of alcohol or controlled or dangerous substances at school, in a drug-free school zone, or at a school function, shall be subject to school disciplinary measures and/or citations issued by law enforcement officials.

Gang Activities Prohibition (Board Policy 3310)

This school district has a legitimate educational objective of curtailing gangs and gang activities. In furtherance of this educational objective, all gangs and gang activities, including, but not limited to, wearing, possessing, using, distributing, displaying or selling any clothing, jewelry, emblem, badge, symbol, sign, gestures, codes, or other things which evidence membership or affiliation in any gang is prohibited in any of the public schools in this district and at all school functions.

It will be unlawful for any person, group or organization to establish a fraternity, sorority or other secret society whose membership is comprised in whole or in part of students enrolled in this district's public schools, or to solicit a student in any of this district's schools to become a member of such organization;

and no student enrolled in this school district will be or become a member, or pledge him/herself to become a member of any such organization.

Gun Free Schools Act

A student is found by district personnel or by law enforcement personnel to have carried a dangerous weapon as defined by 18 United States Code Section 921 on school property. The definition of weapon for purposes of expulsion under this provision includes firearms or destructive device, which may be readily, converted to and expel a projectile by action of an explosive or other propellant. Antique firearms and rifles that the owner intends to use solely for sporting recreational or cultural purposes are specifically excluded from the definition.

The expulsion shall be a period of not less than one (1) year (twelve (12) calendar months). The board may modify the expulsion on a case-by-case basis.

Drug Paraphernalia

Students are prohibited from bringing any drug paraphernalia to school. Reasonable suspicion: In 1996, the Idaho State Legislature passed two laws concerning the use of controlled substances and how school will handle violations. Idaho Code 37-2732C makes it a misdemeanor for anyone to be “under the influence” of a controlled substance in places open to the public. Idaho Code 33-210 sets up guidelines to determine reasonable suspicion of a student violating Code 37-2732C.

A school can establish reasonable suspicion of a student under the influence by a teacher documenting the student’s abnormal behavior and observations from a intervention-trained teacher or an administrator. If it is then determined that a student is “under the influence” of a controlled substance, the school notifies the police. It is the responsibility of the police to notify the parents. The school district’s substance policy will be followed concerning suspension from school, obtaining an assessment and counseling.

Hazing, Harassment, Intimidation, Bullying, Cyber Bullying (Board Policy 3295)

No student shall intentionally commit, or conspire to commit, an act of harassment, intimidation, bullying or cyber bullying against another student. Harassment, intimidation, bullying or cyber bullying is prohibited in all forms including, but not limited to, when such conduct is in relation to a student’s race, color, religion, sex, gender, sexual orientation, national origin, genetic information, or disability. Such behaviors foster a climate of fear and disrespect that can seriously impair the physical and psychological health of its victims, create conditions that negatively affect learning, and undermine the ability of students to achieve their full potential.

It is the policy of this district to maintain a safe school environment for all students while on school grounds; walking or busing directly to or from school; and attending district-sponsored activities, events, or functions on school premises or at other locations. Harassment, intimidation, bullying and cyber bullying are disruptive to a safe school environment and will not be tolerated.

Any person that believes they have been treated in a manner that is in violation of this policy may file a report as outlined in the associated procedure.

Sexual Harassment (Board Policy 3290)

Sexual harassment is a form of sex discrimination and is prohibited by the District. An employee, District agent, or student engages in sexual harassment whenever he/she makes unwelcome advances, requests sexual favors, or engages in other verbal, non-verbal or physical conduct of a sexual or sex-based nature. Students (or their parents/guardians) who believe that they may have been sexually harassed or intimidated should contact a trusted adult. This may include but is not limited to a parent, counselor, teacher, Title IX coordinator or administrator who will assist them in the complaint process.

Assault and Battery

This district policy prohibits students from committing acts of violence against other students, district personnel, or other persons. Any assault or battery by a student on an employee of this district, another

student, or other person, occurring on or near the school grounds or at a school sponsored event will result in the student being disciplined.

Further, any person, including a student, who, while on school grounds, willfully threatens, by word or act to do violence to any other person on school grounds may be referred to law enforcement for prosecution. This expressly includes anyone who willfully threatens, by word or act, to use a firearm or other deadly or dangerous weapon.

Searches & Seizure (Board Policy 3370)

To maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects when the student is on school property or at a school-sponsored event

Students are prohibited from using a locker for the storage of illegal, contraband, or potentially harmful items, including, but not limited to, weapons, drugs, and alcohol. School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by students, without notice or consent of the student. This applies to student vehicles parked on school property.

The District may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, and other illegal or dangerous substances or material, including searches conducted through the use of specially trained dogs. A drug dog's alert constitutes reasonable suspicion for the District officials to search the lockers, personal items, or vehicles.

For health and safety reasons, a general inspection of school properties such as lockers and desks may be conducted on a regular basis or when reasonable suspicion reveals that the search will disclose evidence of illegal possession or activity.

School authorities may search the student and/or the student's personal effects in the student's possession when there is reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating the law or the District's student conduct rules, that the student is in possession of illegal or contraband materials, or the student is secreting evidence of a crime or violation of District policy. The search itself must be conducted in a manner that is reasonable in scope, reasonably related to its objectives, and not excessively intrusive in light of the age and sex of the student, the circumstances of the search, and the nature of the infraction.

If a search produces evidence that the student has violated or is violating the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Random Searches

In the interest of maintaining safe and drug-free schools, school officials may conduct random or "blanket" searches of student lockers, student belongings, desks, and the school parking lot. School officials will conduct such searches in a random and systematic manner that is minimally intrusive, and it is not required that reasonable suspicion exist.

The superintendent or designee will develop and implement a "lottery" system by which lockers, desks, student belongings, and vehicles will be randomly selected to be searched. Random searches may be conducted for any reason at any time without notice, without student consent, and without a search warrant. Random searches may involve the use of drug dogs, metal detectors, or surveillance cameras.

Cellular Communication Devices (Cell Phones)

In order to maintain a safe school environment, the unauthorized use of a cell phone during the school day may warrant the cell phone to be confiscated and searched by a school administrator who has reasonable cause that the search will provide evidence that the student is in violation of school policy or by a law enforcement official who has probable cause that a crime has been committed.

1. The scope of such a search should be related to the objective of the search.
2. When a cell phone is searched for reasonable cause, the student shall be notified and given an opportunity to be present.
3. If there is a reason to suspect that the cell phone contains materials that pose a threat to the health, safety or welfare of students or staff, the cell phone may be searched by law enforcement officials with prior warning or presence of the student.

When a cell phone is searched for reasonable cause, the student's parents shall be notified: a record outlining the manner in which the search occurred, witnesses present, and the result of the search shall be created.

Corrective Actions and Punishment (Board Policy 3340)

The superintendent, principal or designee of Lake City High School may temporarily suspend a student for disciplinary reasons or for any other conduct disruptive of good order or the instructional effectiveness of the school.

The temporary suspension by the principal will not exceed five school days in length. The superintendent may extend the suspension an additional ten school days.

If the board finds that immediate return to school attendance by the temporarily suspended student would be detrimental to other students' health, welfare, or safety, the board may extend the temporary suspension for an addition five (5) school days.

Prior to suspending any student, the superintendent or principal will grant an informal hearing on the reason for the suspension and the opportunity to challenge.

Any student who has been suspended may be readmitted to the school by the superintendent or the principal who suspended him or her upon such reasonable conditions as the superintendent or principal may prescribe. Students are expected to complete assignments during suspension with a mutually-agreeable timeline.

As a result, this district has a policy of “zero tolerance” for students who bring weapons or other objects /substances to school which are a threat to the health and safety of other students, staff members or visitors, or are a disruption to the educational process.

The superintendent or designee will immediately confiscate any item identified as a weapon. This can also include any normally non-dangerous object or substance use threateningly.
- knowingly assisting another person(s) to possess, carry, or use a “weapon” at school, on a school bus or at any school- sponsored activity, whether or not such activity is on school- owned/leased property or property used for related purposes.

“Possession” is defined as actual or constructive possession. A student is deemed to possess a weapon when the item is found to be in any of the following locations: On a student’s person, in the student’s personal property, including but not limited to the student’s clothing, backpack, purse or any other item the student transports or carries and/or causes to be transported or carried to school, a vehicle the student drives and/or is transported in and is parked on school property, the student’s locker or any school-related location.

Violation will result in a grade of zero for the questioned work. Repeated violation may result in suspension or removal from the class and loss of credit.

An act of stealing assignments, quizzes, tests, answer keys or EOCAs and distributing information for the academic gain of self and/or others may result in loss of credit, suspension and / or expulsion.

Student Conduct Expectations on Buses

Conduct on Buses (Board Policy 540/8140)

The school bus is an extension of the classroom, and students are required to observe safety regulations and standards of conduct which provide for their safety and welfare, and the safety and welfare of others.

The Director of Transportation is authorized by the Board of Trustees to suspend bus riding privileges to students who are disruptive or who present a danger to the safe operation of the bus. Temporary suspension of riding privileges shall not exceed ten (10) days per occurrence. The Director shall give cause to the parents or guardian of the suspended student, in writing for such suspension. The Director of Transportation may delegate the duty of notice to bus drivers. In cases of continued or serious violations, a student may be permanently suspended from riding the school bus.

The Director of Transportation is authorized to install and use video cameras on school buses to monitor conduct.

Attendance and Tardy Policies

At Lake City High School, we feel that regular and prompt attendance in classes is of utmost importance to insure the quality education of the child. Students are expected to be in their assigned areas at all times.

The Board of Trustees hereby establishes the following attendance policy governing absences and excuses for the students of the district:

In accordance with Policy 3040, the right to attend school is fundamental and purposeful. Along with this right is the responsibility to attend school faithfully and regularly. This responsibility rests with the student and with the parent or guardian, and is basic in order to meet the instructional goals of District 271 and the Compulsory School Attendance Laws of the State of Idaho.

The instructional program of the District is based upon regular daily instruction and interaction between the student and teacher. Therefore, poor attendance is a disruption to the instructional programs of students who attend school on a regular basis. Many teachers have daily points that can only be earned by participating in class activities.

Each school shall keep accurate records and establish procedures for monitoring and holding students accountable for unexcused absences.

The following Attendance Policy information applies to all students in grades 9-12.

90% Attendance Rule (Board Policy 3040)

A student who accrues five or more days of absences in any class shall lose credit for the semester. Credit will be reinstated when: a) the student passes an end-of-course assessment (EOCA) in which the student has lost credit, and b) the student has a passing grade for the course.

If a student takes the EOCA and consequently loses credit, he/she may appeal to an academic committee if said student feels he/she has the minimum competency in the course work, but that was not reflected in the exam, and there are extenuating circumstances for violating the 90% attendance rule. The exam must be taken before any appeals will be granted.

Courses which are performance based, such as music, Drama, technology, P.E., professional-technical, aide positions or YVA, may choose to have evaluations in which the student performs or presents a portfolio of semester work.

Work missed due to excused absences will be made up at a time to be arranged by the teacher/department.

Absences will be dealt with through a series of steps that include parent notification and conferences. Disciplinary action will be taken when unexcused absenteeism occurs. These actions may include: Detention, In-School Suspension, Night School, Out-of School Suspension, Notification to Prosecutor's office as Habitual Truant, Driver's License Suspension.

Truancy (Board Policy 3040)

As defined by Idaho law, a habitual truant is any pupil who, in the judgment of the Board of Trustees, repeatedly has violated the attendance regulations of the School District, or any child whose parents or guardians, or any of them, have failed or refused to cause the child to enroll and regularly attend school. As directed by Idaho law, the Board shall file a truancy petition with the magistrate Court of Kootenai County whenever it determines that the parents or guardians of any child are failing to meet compulsory school attendance requirements.

Truancy, (unexcused absence) is defined as:

- absent without the knowledge and consent of parent/guardian, or instructor
- absent from classes after once arriving on the campus, and without consent of the school.
- leaving campus without signing out in the office.
- obtaining a pass to go to certain place and does not report there.
- becoming ill and going home or staying in the restroom instead of reporting to the office.
- failing to excuse all absences within two (2) school days of returning to school.

Students must be in compliance with the 90% attendance policy in order to be eligible for the Verification of Compliance that is required in order to obtain their instruction permit. In the event a student fails to meet the enrollment and attendance requirements of this policy, the principal or designee will provide written notification on a form provided by the Idaho Department of Education to the student and parent of the school's intent to request that the Idaho Department of Transportation suspend the student's driving privileges because the student has dropped out of school or has failed to comply with the enrollment and attendance requirements.
