

02/11/22 - Weekly Board Notes

Mike Nelson - Winter Interim Assessment Growth:

During the month of January, we provided the following interim assessments:

- i-Ready mathematics for students in grades KG-05
- IStation reading for students in grades KG-05
- Illuminate Fastbridge aMath for students in grades 06-12 (excluding AP courses)
- Illuminate Fastbridge aReading for students in grades 06-12 (excluding AP courses)

The second assessment window provides us an opportunity to view student growth since September and view each student's progress toward covering standards and matching/exceeding the growth shown by their grade-level peers. The reports below are organized by assessment and are posted individually on our district website at www.cdaschools.org > Departments > Assessments > Progress Monitoring Assessments.

Individual student reports are at our Print Shop now and will be sent to buildings next week. Teachers will have access to presentations that help students and families interpret the results. An introductory email will also be sent to families this weekend letting them know that the results are coming.

Finally, results for each assessment have been loaded to our District data dashboard at www.cdaschools.org > About Us > Data Dashboard where users can view our results by level.
