

01/13/23 - Weekly Board Notes

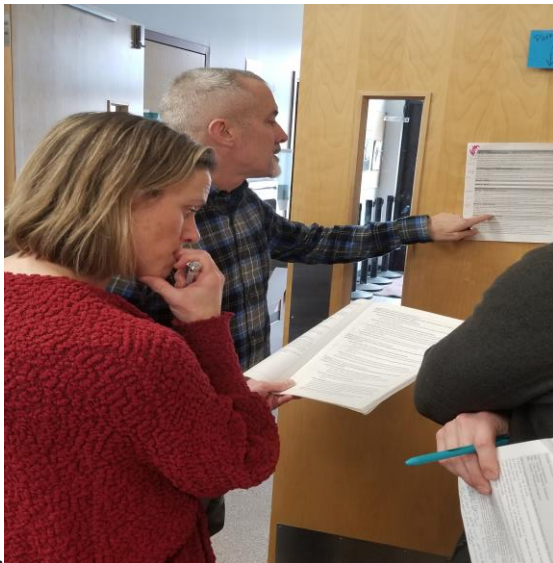

Katie Graupman - Curriculum Committee Invitation:

The Secondary Science Academy, comprised of secondary science teachers, has already been busy this week, meeting to comb through feedback from colleagues, analyze test data, finalize their mission and vision statement, address issues in vertical alignment, and examine essential standards across multiple grade levels to ensure students receive the best possible science education through their years in Coeur d'Alene Public Schools. They also began discussing the types of resources that will best help students achieve this goal. This work will help inform the curriculum resource adoption committees and serve as a touchstone.

Please join us for either of the curriculum resource adoption committees next week. We will begin by organizing ourselves and co-creating an adoption rubric to evaluate materials.

Secondary Science will meet 1:30 pm - 2:30 pm, Wednesday, January 18 at Midtown.

Elementary English Language Arts will meet 1:30 pm - 2:30 pm, Thursday, January 19 at North Idaho Hospice.

1/12/23 - Current Enrollment Numbers Reports:
