

12/10/21 - Weekly Board Notes

Kate Keinert - Equity Framework Community Learning Group:

A total of 36 community members and parents accepted the invitation to participate in an Equity Framework Community Group. **Kate Keinert** is meeting Wednesday evenings with one group and Friday mornings with another. The groups are made up of diverse community members with students attending nearly each of our District schools. Last night, Dec 8th, was the second meeting with our Wednesday group and we were able to dig into the language of the Equity Framework together. Many positives were shared as well as thoughtful questions, conversations, and suggestions. There's *a lot* of loaded statements early in the document, so I wasn't surprised to see our time pass quickly, and our progress move slowly (we got to page four!).

The groups are full of earnest, curious people bringing their experiences and hopes for our schools to the conversation around how we articulate "all means all" in Coeur d'Alene Schools. I am thankful for this opportunity to work closely with valued stakeholders in such meaningful work.
