3/6/2020 - Weekly Board Notes

The Sup Is On/weekly podcast: New episodes will be released on Fridays:

http://cdaschools.buzzsprout.com/

Mike Nelson - Juniors And Seniors In Mathematics Courses:

Per request from Trustee May at Monday's Board meeting, please find these graphs of students and their currently enrolled mathematics courses. These values are built from previous PSAT/SAT results and would not include results from students enrolled after the fall (PSAT) or spring 2019 (SAT) standardized dates. Please note that students with mathematics courses off-campus (dual credit/KTEC) are included, but lumped together.

SEE ATTACHED.

Kate Orozco - Teacher Leader Academy Update:

In April, Teacher Leader Academy (TLA) participants will once again host teaching and learning lab experiences for one another, their administrators, instructional coaches, and colleagues from their schools. If you are curious about the google doc we use to manage the times of the labs, who's going where, what problems of practice they are trying to improve, etc., I have made a copy of the document (still in progress) and it is linked here. Also, if you are interested in observing the lab experiences in action (or parts of them), let me know and I would be happy to accompany you. Although not complete, many of the dates and times are on the google doc.

SEE ATTACHED.

Scott Maben - Revisions On The DRAFT Attendance Zone Transition Plan:

Attached is the current draft of the grandfathering prioritization plan with updates from this week's discussions. I added an intro page with definitions; it needs some work. Under the second paragraph I left the last sentence (in strikeout) so you can see an earlier thought that may or may not be what we intend.

New language is highlighted on pages 2-4, including the sentence legal created to replace the IEP/504 language in the previous draft.
