Re: NIC Dual Credit Courses

Our District has a well-established history of offering dual credit courses on our high school campuses. Offering on-campus dual credit courses benefits our students by allowing them to earn college and high school credits at the same time without ever having to leave campus. In addition, since most dual credit instructors are also Coeur d'Alene Public School teachers, students have greater access to their instructors when they need help. Content and curricular resources are governed by the college and must meet their standards for credit.

The following courses will be offered through NIC this spring at Lake City High School:
