Re: Follow-up on Engagement Surveys

Per your request, please find two items in this memorandum which will fulfill your requests for additional information on our statewide engagement surveys:

- A summary of performance for each building on the parent, staff, and student surveys in the 2020-2021 school year (Trustee May);
- The questions included on the student engagement survey (Chair Brumley)

These results will be posted to the State of Idaho report card at www.idahoschools.org, most likely with statewide assessment results at the end of the current testing window, which closes at the end of May.

PARENT ENGAGEMENT SURVEY

Our annual parent engagement survey, developed by Cognia, has been provided to parents/guardians districtwide for the past three years. A percentage of agreement (choose of "agree" or "strongly agree") is shown below. The cells are shaded based on proximity of agreement with cells that are more red reflecting less agreement and cells shaded more in green indicating a higher percentage.

STAFF ENGAGEMENT SURVEY

Our annual staff engagement survey, developed by Cognia, has been provided to both classified and certificated staff members districtwide for the past three years. Each of three domains shown below provides an average of response based on a 1-5 scale and change over three years is indicated on the last three columns. Responses are scored on a 1-5 Likert Scale.

STUDENT ENGAGEMENT SURVEY

Our annual staff engagement survey, developed by Cognia, has been provided to students in grades 03-12 for the past five years. However, the survey was redesigned in the 2019-2020 school year, yielding two years of comparative data. The chart below provides the percentage of students who answered that they were committed behaviorally, emotionally, and cognitively to their work and life in our schools. **As of today, we have not received the student data file from which we could disaggregate eSchool student responses from their home schools.**

The cells are shaded based on proximity of agreement with cells that are more red reflecting less agreement and cells shaded more in green indicating a higher percentage.

STUDENT ENGAGEMENT SURVEY QUESTIONS

The documents which follow are found on the State of Idaho's assessment and accountability webpage at www.sde.idaho.gov > Assessments > Surveys and are posted per state contract. However, you will be able to see the questions provided to students at our elementary, middle, and high schools. If you are interested in how those questions are mapped to levels of engagement, I have some professional learning which I can provide.
