

SD271 Magnet School Overlays

Ramsey Magnet School of Science

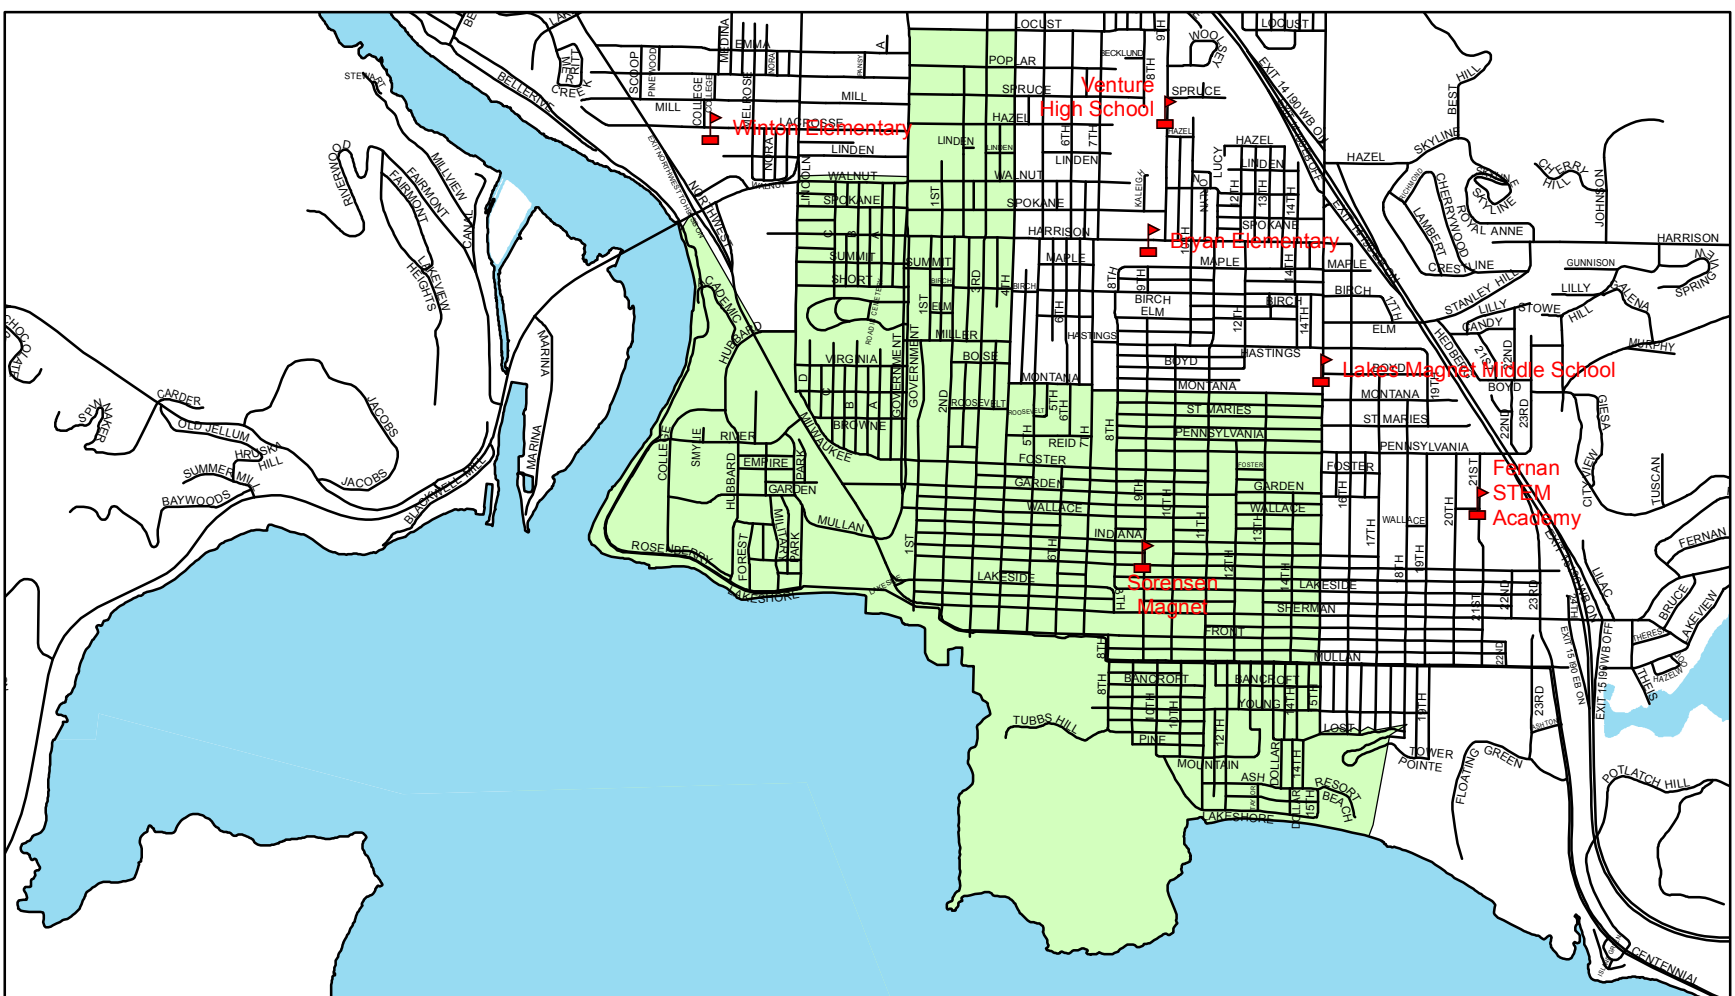

Ramsey and Sorensen are magnet schools, and use a lottery system to determine student enrollment. Below is the priority order for student enrollment:

- 1.Children of Ramsey or Sorensen staff members.
- 2.Children whose siblings already attend the magnet school.
- 3.Children whose families live within the boundary zone of the school.
- 4.Children whose families live outside the school zone or outside the district.

These maps offer the boundaries of the two magnet schools, in order for families to determine whether they qualify as priority #3 (Children whose families live within the boundary zone of the school).
