

Public Performance by Students

Student groups, with the permission of the building principal, may participate in non-school sponsored public events if such participation furthers an educational objective. A student's participation in any non-school sponsored event must be voluntary.

School groups desiring to participate in public events outside of the District's boundaries which are not a regularly scheduled activity of the school must request permission to participate from the building principal at least two (2) weeks in advance of the anticipated activity unless approved by the Superintendent or designee. If any expenditure of school funds is required, prior approval must come from the Superintendent and/or designee.
