Professional Growth and Development

The Board recognizes that training and study for administrators contribute to skill development necessary to better serve the needs of the District. Each year the Superintendent should develop an administrative in-service program based upon the needs of the District, as well as the needs of individual administrators.

Administrative staff are encouraged to be members of and participate in professional associations which have as their purposes the upgrading of school administration and the continued improvement of education in general.

The Superintendent shall make provision for administrative leave to professional conferences and visits which are believed to contribute to the professional growth of administrative personnel and to the successful operation of the District.
