

Goals

The Board recognizes that its primary purpose is to provide a quality education within the limits of the established curriculum and the financial ability of the District. Since educational programs are dependent on adequate funding and the proper management of those funds, District goals can best be attained through efficient fiscal management. As Trustee of local, State, and federal funds allocated for use in public education, the Board shall fulfill its responsibility to see that funds are used to achieve the purposes intended, that they are used efficiently, and their use is reported to the public.

The Board directs the administration to develop specific finance procedures as needed for the effective and efficient implementation of these policies.

In the District's fiscal management, the Board seeks to achieve the following goals:

1. Engage in advance planning, with staff and community involvement, to develop budgets that will achieve the greatest educational returns in relation to dollars expended;
2. Provide timely and appropriate information to staff who have fiscal responsibilities; and
3. Establish efficient procedures in all areas of fiscal management.
