

Website Regarding District Expenditures

The Board recognizes that patrons should have easy access to information regarding how the District is spending its revenues. Because providing the information electronically would allow such access, the District will create and maintain a Districtwide Internet-based website for the purpose of providing information regarding the District's expenditures.

The District will maintain a publicly available website where the District's expenditures are posted in a searchable PDF format. The information will be provided in an open structured data format that may be downloaded by the user.
