

February 14, 2019

Hello,

Well, the weather certainly has been messing with us! I hope with us having a short week next week, it gets this out of its system so we can get things done! ☺

We are very busy learning about the Lewis and Clark Expedition. We are including art, technology, and even PE in our learning. We are also doing a lot of reading and writing. On Friday, March 1 we are going to take a little journey to Tubbs Hill so we can gather materials for an upcoming project that will be included in our exhibition. We will leave school at 11:00 a.m. and return by 2:00 p.m. Please fill out the sheet at the bottom of this letter letting me know if your child will need to order a sack lunch from the cafeteria. I know I mentioned in the last letter I would have information about the upcoming exhibition on March 13. Due to some unexpected weather and meetings this week, Mrs. Cutts and I were unable to get information ready to send home. We will have it by next week – thanks for your understanding.

Our math skills are improving as we continue to learn more about multiplication, division, and word problems. We are steadily working our way into the lovely world of fractions.

Please note there will be no new spelling lists for the next couple of weeks.

Don't forget about reading minutes and those pesky multiplication facts!

Have a great week!
