

April 19, 2019

Hello,

It is so nice that we actually have daylight for a few hours after school. It reminds me how quickly summer will be here...

We are quickly approaching ISAT testing time. We will begin testing Tuesday, April 30. This means we will be doing a lot of test prep. I know it isn't the most fun to be had BUT, I want my students to feel confident and to show off their true abilities so I think the time is well spent. ☺

We are continuing to learn about fractions and geometry in math. We are learning about ecosystems in science and how we can help to lessen our impact on our own environment. We are doing a lot of reading and writing as well.

Please check out the other UPCOMING EVENTS. Keep saving those cans and water bottles for our Earth Day celebration.

Please keep reading at home and study those multiplication facts!

Have a wonderful week!

## UPCOMING EVENTS

**Tuesday, April 23**

Earth Day Celebration

We will be accepting any aluminum cans and plastic water bottles to take to recycling on this day. Please bring your cans and water bottles to school on Tuesday morning.

**Tuesday, April 30 – Friday, May 10**  
**ISAT Testing**

Here are some tips to help your child do his/her best on these very important tests:

- Try to be at school every day during the testing window. It is very stressful on students to make up the tests at a different time from the rest of their class.
- Get to bed early every night. A good night's sleep makes for a clear and happy mind.
- Eat breakfast. A nourished body also makes for a clear and happy mind.
- Give lots of hugs and encouragement!

**Your child passed the following multiplication one-minute test:**

\_\_\_ 0's & 1's \_\_\_ 10's \_\_\_ 5's \_\_\_ 2's \_\_\_ 4's \_\_\_ 3's \_\_\_ 6's \_\_\_ 8's \_\_\_ 7's \_\_\_ 9's \_\_\_ 11's  
\_\_\_ 12's \_\_\_ **Multiplication Mad Minute (mixed facts 0 - 9)**

**All students should pass all these tests by the end of the year.**
